Process Simulation Training Courses

Improve your ability and confidence
in the use of the technology

Benefits

- Apply innovative simulation techniques to your daily tasks
- Solve industry problems as efficiently as possible
- Merge engineering knowledge with industry procedures
- Take ownership of others' simulations
- Incorporate simulation best practices

Functionalities

- Modular approach
- Hands-on training
- In-house and public
- Physical and Virtual classrooms
- Small groups
- Industry-tailored courses
- Experienced instructors
- Multiple languages
- From one-day course to multiple instances (programme)
- Many commercial process simulators

Process Simulation Training Courses

Improve your ability and confidence in the use of the technology

Learn by doing. Simulation best practices. Customized for you

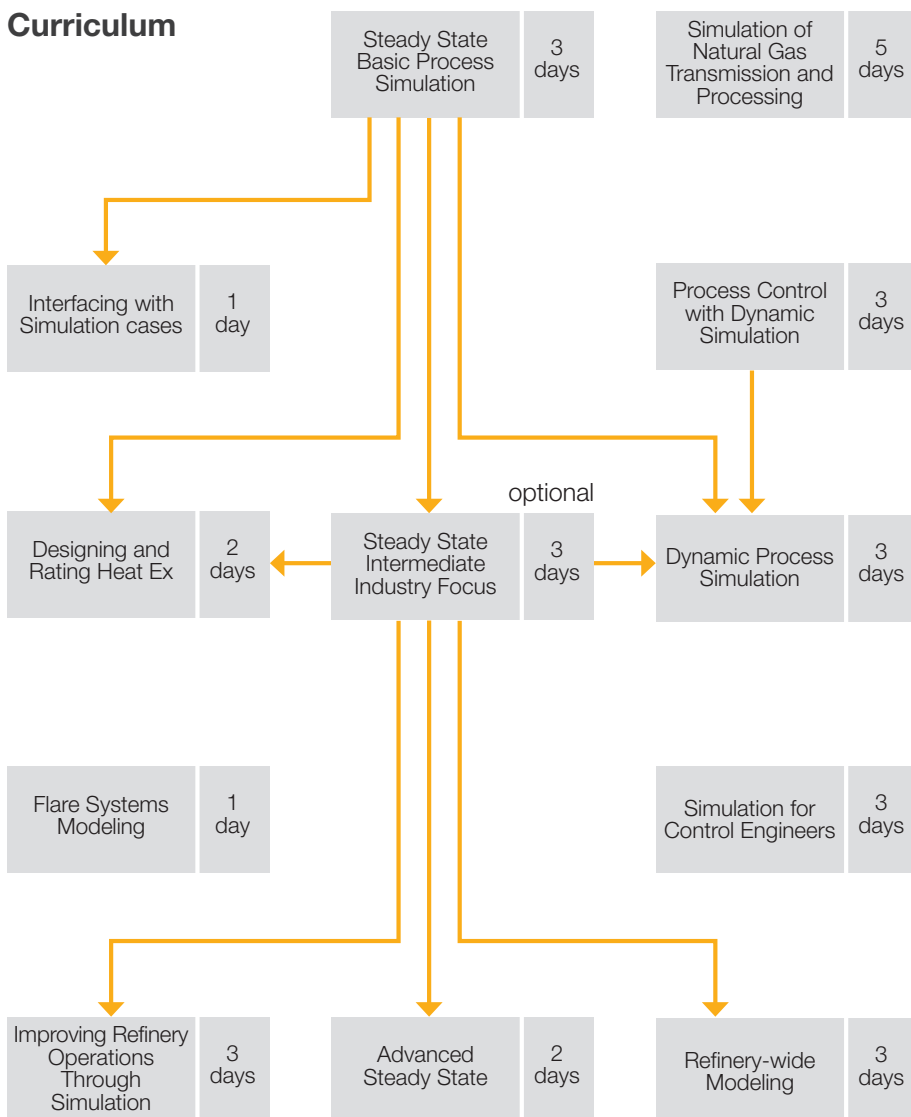

Simulation of distillation course at Middle-East client site

Public training course in Milan (Italy)

Curriculum

Follow-up projects

- Knowledge Improvement Program (KIP)
- 2 + 2 Training
- Training Programme
